COINMASTER ALBUMS

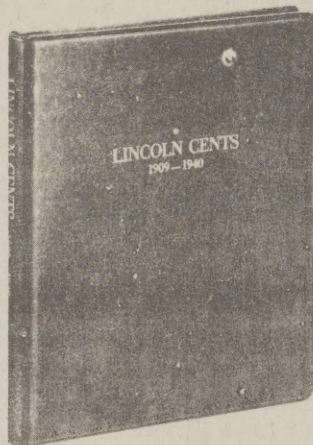

BY HARCO

A NEW CONCEPT IN COIN COLLECTING

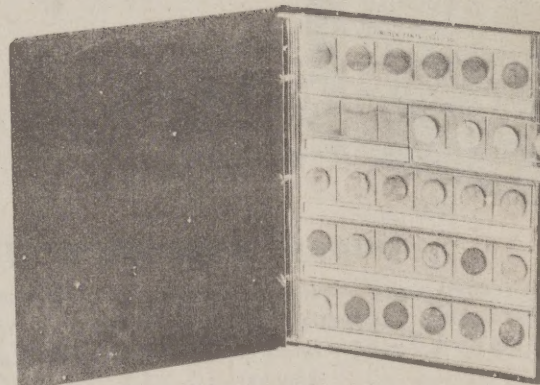

NO COINS COMES INTO CONTACT WITH VINYL (PVC).
SLIDES ARE INERT MATERIAL MANUFACTURED OF *KODAR®.

Now, you can show both sides of your coins with
a flick of the wrist, and never worry about
a coin falling out, or being handled.

When closed, the mahogany-colored vinyl COINMASTER Album, which is gold-stamped on front and on spine, makes a handsome addition to your library. Sturdy screw-post construction allows for removal or addition of pages as desired. When open, the crystal clear pages and slides make a perfect showcase for your valuable coins. These pages, which are 7 3/4 x 9" overall in size, will never become "dog-eared". When soiled, they may be wiped clean. In addition, the description and date-strips are removable, thus assuring that no album can become outdated. Additional pages with blank date strips, and binders, are available.

Whitman® Classic Coin Albums

This is The Classic—a coin album system designed to enhance the most distinguished collection. Constructed of sturdy dura-board, the Classic is covered with soil-resistant, grained leather-like material. It comes in the familiar Whitman blue, with attractive gold embossing on the front cover and spine. The Classic provides a flexible system for collectors to easily remove or add coins while affording maximum protection during storage.

- Pages open flat for convenient viewing
- Contains no harmful vinyl components
- Data sheet gives mint records and historical information
- Screw-type hinge posts are strong, easily removed
- Sliding acetate windows permit two-sided visibility
- Thumb notches allow easy removal of windows

RECTANGULAR MAGNIFIER AND ILLUMINATING MAGNIFIER II

The Rectangular Magnifier is an efficiently shaped Large Area Magnifier which provides the viewing area of a 4" round magnifier, yet is lighter and more compact. The Illuminating Magnifier II has a self-contained illumination system with a small 6 watt GE 6S6 (or equal) 110V bulb that floods the reading area with light. The extra illumination on an object greatly aids vision. An extra feature is a heat-sensing cut off switch. Both magnifiers are designed for reading ease and for easy holding. Made of Optical Quality glass.

MULTI-PURPOSE COMBINATION LAMPS

The adjustable ANCO table lamps clamp easily to edge of table, desk or level surface and are ideal for the den, study, office, factory or any place where concentrated light is needed. These are two of our most popular models for use at conventions, to spotlight coin displays. Completely adjustable, these general purpose lamps move light in any direction and can be adjusted from the two extension arms and from the flare shade neck. Gives a full 360 degree sweep.

AIR-TITE HOLDERS®

THE COMPLETE COIN PROTECTION & DISPLAY SYSTEM

For years coin collectors have been searching for fail-safe protection for their precious investments. After ten years of research, a product is now available which meets the requirements of the most demanding and conscientious collector, offering confident protection, total visibility, optimal display, efficient space-saving storage, and re-usability.

The AIR-TITE Coin Holder - a clear plastic case with an inner seal - provides total protection for your coin - keeps it air-tight, moisture-free, and tarnish-free. Further, it allows obverse/reverse viewing, as well as re-usability. This plastic Holder contains no PVC's, it will not yellow or become brittle, and is highly scratch-resistant. The inner seal is of neoprene, and has been extensively tested to ensure its inert quality.

As illustrated at left, the Holder consists of two Lucite plastic cases (top and bottom) and a special ring-shaped seal. When the cases are snapped firmly together, the seal (which securely frames the encased coin) presses against the plastic enclosure resulting in an absolute air-tight holder.

In order to properly frame and secure the coin, the seal opening must precisely fit the coin. This custom fit is accomplished by manufacturing the seals with openings to fit coins ranging in diameter from 13 thru 40 millimeters.

The product line has been divided into four basic group sizes, referred to as Models (A,T,H,I). The following illustration shows the AIR-TITE products, their usage, and the relative sizes of the four Models (coins not included).

HOW TO DETERMINE THE MILLIMETER SIZE:

Find the coin in the Millimeter Chart. If your coin is not listed on the Chart, then use the Millimeter Scale. If the coin is of a fractional millimeter size, then use the following rules:

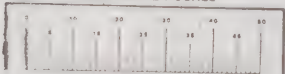

Use next size up for 8 & 9
Use next size down for 1 thru 7

EXAMPLES

U.S. 10¢ (17.9), use 18mm Holder

U.S. 25¢ (24.3), use 24mm Holder

TRACKER III DUAL DISCRIMINATOR

The DUAL DISCRIMINATOR SYSTEM with GROUND TRAC® offers
options for finding more valuables and less trash. 'Tone Discrimination' gives Low
Tone for nickels, tabs and most trash items, High Tone for most coins and silver.
Can be adjusted so tabs give an in-between broken sound, making them easy to
identify, thus allowing for finding of nickels and gold rings along with other coins.
On 'Full Discrimination' the detector will reject trash and other unwanted items.

The Gallery Line of Fine Display Trays & Cases

T1 for Anything

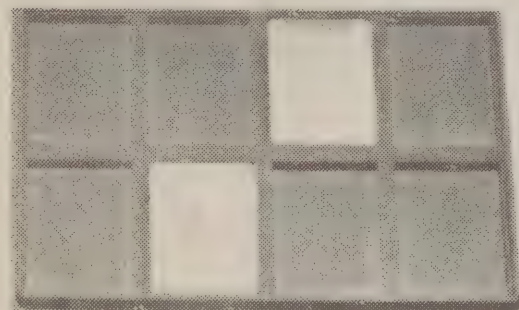

This tray can be used for anything. Ideal for sorting coins or minerals. Can be used for showing coins at a counter or examining customers' coins. Display rolls, sets, groupings, etc.

T4 for Coins • Minerals • Jewelry

COMPARTMENT SIZE — $4\frac{1}{2} \times 6\frac{1}{4}$

Designed to hold four Capital Comet coin holders. Use compartments to display different kinds of polished minerals or loose coins by type, Barbers, Indians, Liberties, etc. Large mineral specimens can be displayed in these compartments.

T8 for Coins • Minerals • Jewelry

COMPARTMENT SIZE — $3\frac{3}{8} \times 4\frac{3}{8}$

Much the same as T4. Will hold 8 Capital Compact coin holders. See T4 for other ideas.

T8L for Coins • Minerals • Jewelry

SPECIALLY DESIGNED COMPARTMENTS

Specially designed for the $2 \times 7\frac{1}{2}$ Canadian 6 coin set holder. Ideal for displaying medals with ribbons, jewelry, necklaces, watches, etc.

T15 for Coins

COMPARTMENT SIZE — $2\frac{5}{8} \times 2\frac{5}{8}$

Compartments are the same as T15D, but with our special dip for easy removal of the $2\frac{1}{2} \times 2\frac{1}{2}$ size crown holders, watches, etc.

T15D for Coins • Minerals • Jewelry

COMPARTMENT SIZE — $2\frac{5}{8} \times 2\frac{5}{8}$

This tray is much like T24. Used for medium size medals, coins, or minerals.

T18 for Coins • Minerals • Jewelry

MULTI-PURPOSE TRAY

Holds 18 2×3 cushion snaplocks holders for coins or the $2 \times 3 \times 1\frac{1}{4}$ box for minerals. For other ideal uses of this tray, see T24.

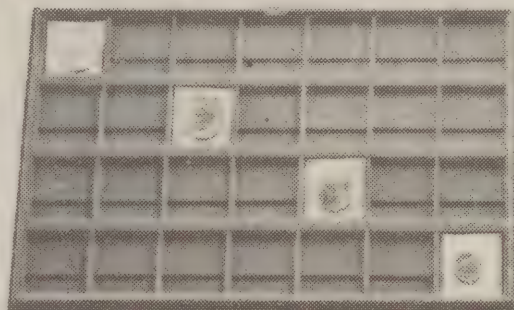

TRAY SIZE $10\frac{1}{2} \times 16\frac{1}{4}$

T24 for Coins • Minerals • Jewelry

MULTI-PURPOSE TRAY

This multi-purpose tray will hold 24 2×2 snaplock holders for coins or the $2 \times 2 \times 1\frac{3}{8}$ snaplock box for small minerals. Small size medals or minerals can be placed in the tray compartments. Dealers display several coins by date in each compartment. Ideal for sorting coins. Jewelry findings for do it yourself collectors or the completed items can be attractively displayed with this tray.

T28 for Coins

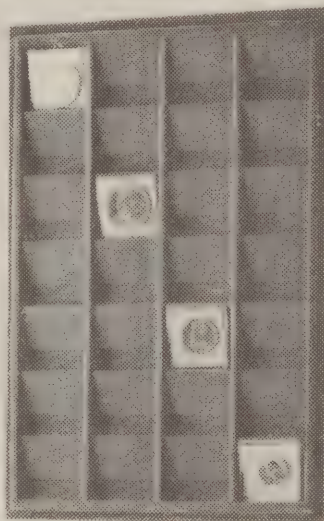

FOR 28 2×2 COIN HOLDERS

An old standard with new compact design for 28 2×2 coin holders — has special dip for easy removal of coin holders.

T54 for Coins

FOR 54 $1\frac{1}{2} \times 1\frac{1}{2}$ COIN HOLDERS

Our most popular tray among dealers has caused a great deal of excitement with good reason. It holds twice as many coins as the T28. Cents, nickels, dimes, quarters and halves can be displayed with $1\frac{1}{2} \times 1\frac{1}{2}$ coin holders. Tray has special dip for easy removal of coins.

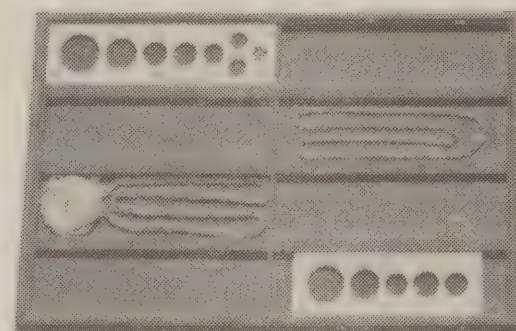

LT 28

LT 54

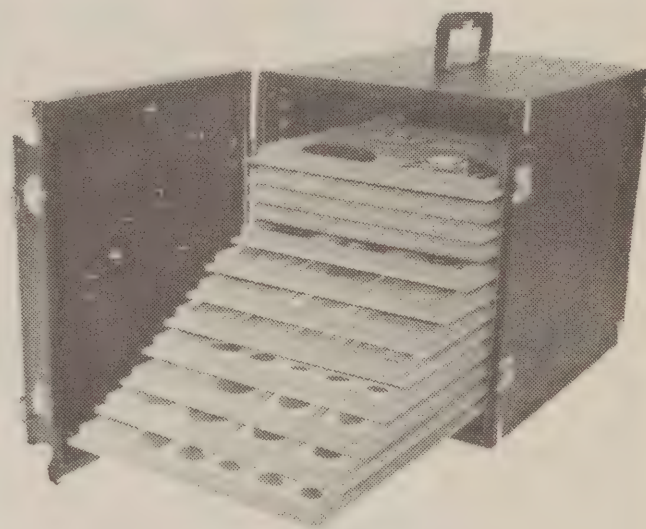

These Trays allow greater depth in coin display but hold the same amount as the Regular T-28 or T-54 Trays. The LT-28 Displays 4 coins wide and 7 coins deep. The LT-54 Displays 6 coins wide and 9 coins deep. Both trays still have the special dip for easy removal.

SAFE Stackable Coin Drawers

Outside dimensions: 14-7/8x10-1/4x1-1/8"H.
A new system from SAFE: The Coin-Safe build-on system. These drawers were developed for the collector who wants to integrate these modular elements into an existing cabinet, without the use of the case itself. The drawers are the exact replica of the ones on the opposite page, but are housed in individual crystal clear frames for complete protection. The frames "lock" on top of each other for easy stacking. The coins are displayed on royal blue velvet and visible at all times.

Nic-A-Date

Restores Dates on Nickels
Dates are restored by simply placing a drop of Nic-A-Date over the date area of the coin. When the date becomes satisfactorily visible, rinse the coin with water and wipe clean. Surfaces may be worn smooth and dates not be visible, however, Nic-A-Date will bring out the original date. The excellent results obtained in restoring dates on nickels had made Nic-A-Date a proven seller. Nic-A-Date works well on Shields, Liberty, Buffalo and Jefferson Nickels.

SIMPLE TO USE!

Safe-T-Mailer consists of a single sheet of corrugated board coated overall with an adhesive that sticks only to itself. It will not stick to paper, plastic or metal. Objects to be mailed are placed on the sheet, the sheet is folded along the score line and pressed together. It is then ready to be inserted in a standard size envelope, and mailed. No staples or other fastenings are needed. Objects may be loose or in a plastic, paper or metal holder.

ADVANTAGES

- "Read-Through" transparency
- Best for long term storage
- Long lasting adhesive
- Holds in extremely cold temperatures
- Performs -40 to 140° F

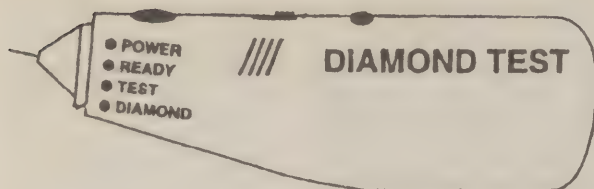

ACT (Acrylic Carton Tape)

When your taping needs call for "see-through," "read-through" transparency, for protecting labels, etc., you can count on Acrylic Adhesive to provide crystal clear visibility and long lasting adhesive over lengthy periods of time, making it ideal for items going into long term storage. It effectively inhibits the yellowing and aging that occurs when non-acrylic coatings are exposed to UV light, heat and air. Acrylic Adhesive withstands extreme temperature ranges from -40 to 140 degrees F and can be readily applied at temperatures as low as 32 degrees. Natural rubber adhesive may be more effective on rough, recycled, heavily imprinted or overstuffed cartons. Natural or synthetic rubber adhesives may be preferable in moist or humid conditions.

UNITED STATES ALBUMS

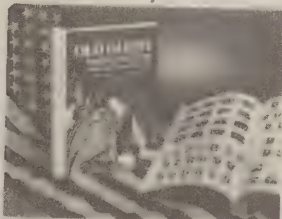

Eagle Album

Here is a United States Stamp Album for the beginner. The 9"x12" page is plastic bound in an exceptionally attractive red, white and blue printed cover. Fully illustrated with approximately 70 pages printed on both sides in black with blue border.

LIST 13.95 NET 9.75
3/25.10

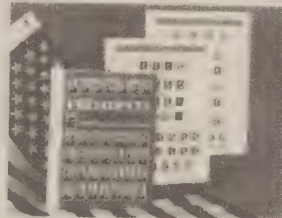

Old Glory Album

This relatively new binding system called Channel Master makes this United States album unique. Loose leaf 3 hole punched with a page size of 8 1/2"x11" is adaptable to fit any standard 3-ring binder. Approximately 70 fully illustrated pages printed on both sides bound in an attractive red, white and blue printed cover makes this a fine entry level album. Supplements issued annually.

LIST 15.95 NET 11.15
3/28.75

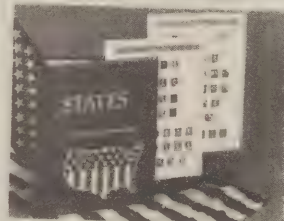

Presidents Album

Channel Master, 3-ring, this United States Album has an 8 1/2"x11" printed on one side only page format. Approximately 140 pages fully illustrated and a perfect intermediate level album. Supplements issued annually.

LIST 22.95 NET 16.05
3/41.30

United States Of America Album

A more comprehensive album for the U.S. collector that wants to expand. This fully illustrated, 9"x12", two post loose leaf album is an excellent choice. Brilliant blue padded vinyl binder is screen printed in red and white. Approximately 140 pages printed on one side only makes for enjoyable collecting. Supplements issued annually.

WORLD WIDE ALBUMS

Courier Album

Definitely the right album for the entry level stamp collector. This beginner style 68 page, bound and illustrated world wide album is a popular way of introducing the hobby. Full color printed front cover with a map of the world on the back cover is very appealing.

LIST 8.95 NET 6.25
3/16.10

Planet Earth Album

With the new collector in mind, this slightly more advanced than the Courier Album version world wide album has more to offer. The full color cover bound in plastic has over 200 illustrated pages. Titles and descriptions of each country depicted are combined with spaces for each country's flag and coats of arms. Both USA and Canada have been more extensively covered.

LIST 13.95 NET 9.75
3/25.10

Travel Album

For the intermediate level collector, this two post world wide album with two sided loose leaf pages has over 200 illustrated pages in a one inch capacity maroon vinyl binder attractively screen printed in white. With a supplement issued annually, this album allows the collector the opportunity to expand.

LIST 34.95 NET 24.50
3/62.95

Deluxe Album

With over 360 illustrated pages, this world album fills the collecting needs for the advancing hobbyist. One and a half inch capacity, two post heavy duty vinyl loose leaf binder. Color contrasting blue with white and gold screen printing makes a very attractive cover. Supplements issued annually.

LIST 47.95 NET 33.55
3/86.35

Senior Album

The more advanced collector can grow into this traditional two post, two inch loose leaf construction album. A color coordinated green heavy duty vinyl screen printed binder holds the more comprehensive 490 illustrated pages. Supplements issued annually help to make this album the most popular.

Sentinel Album in Full-Color

Page size 8 1/2 x 11 inches, heavyweight paper.

Introducing CWS's first full color U.S. postage stamp album. Now 'missing' stamps no longer detract from the impact of an otherwise attractive series of stamps. When a stamp is missing in albums with black and white pictures it appears that a collection is 'incomplete'. The more realistic illustrations in this album heighten the excitement of stamp collecting. Each Sentinel is housed in a 1 1/2 inch capacity standard 3-ring binder made from our heaviest beige vinyl and is printed with gold lettering. An attractive and functional slipcase also comes with each album. The Sentinel is published as a two volume set. Volume 1 contains approximately 80 heavy weight pages printed on one side, featuring the issues from 1847 to 1974. Volume 2 contains the issues from 1975 and on, containing 75 pages. The large capacity binders allow a collector to use stamp mounts or add blank pages to hold specialty items.

The crystal-clear pockets are of 0,1 mm thick polyester film. The molecules are oriented biaxially, which means that they lie at right angles to one another in one plane. This gives the material its great resilience, which is permanent. The polyester film is 100% inactive, i.e., it contains no plasticizers or other additives which could damage your stamps. It withstands temperatures of up to 350°F.

The base is 270-gram cartridge and is made of homogenous sulphite pulp which is sized with saponified rosin size so as not to give off color. The pH value of the board is adapted to that of the stamp paper.

The pockets are glued with a 100% synthetic rubber glue which is chemically completely inert. It is permanently elastic and continually withstands the bending of pockets. Nor is there any risk, at temperatures up to 260°F, of adhesion to the stamps. This special glue has been thoroughly checked and proven for more than 20 years.

"Compact" - Our "Little Giant!"

A collecting system with huge capacity

Size of binder: 9 x 9 3/4" H with 3" spine

Thanks to its huge capacity, the Compact Album series saves not only money but also space.

It couldn't be easier: Just slip Postcards, FDC's, ETB's, Coins, Banknotes, Booklets, and Yearly Souvenir Folders into these vinyl specialty pages. Presto...done!

Both the richly padded, tan simulated leather binder and the standard blue binder have a strong 4-ring mechanism. The patented clamping mechanism is located on the inside of the front cover, holding together the cover and the ring mechanism after closing, just like a book. Therefore, the binder will hold steady even after filling up to maximum capacity.

Showgard Albums for Philatelic Covers

The novel Showgard thin line album is the most economical and practical way to keep covers on the philatelic bookshelf.

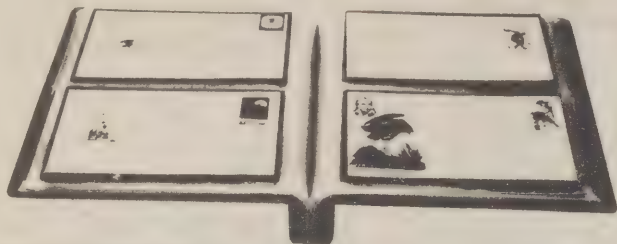

● The library design is such that the least possible shelf space is occupied.

● The filled album has no stress at the binding seams. Individual support strips are included to compensate for envelope thickness and weight.

● The pages are of premium gauge virgin polyethylene, with black background inserts in each pocket.

● The padded covers are handsomely bound in vinyl grain colors of Black Seal, Luggage Tan, and Flag Red.

Showgard cover albums hold more and are far more durable. They make a proud addition to any library.

The Showgard Cassette System for stamp safekeeping

**Extends for viewing
Retracts for storage
It works!**

Cassette No. 712

For efficient sorting, filing, and retrieving of stamp holdings, nothing beats the flexibility and versatility of the Showgard Cassette system.

The cassette sets up in seconds and remains as a sturdy, handsome stamp chest. The front panel slides forward to form a natural viewing angle. Then back to a compact unit for shelf or bank vault storage.

- For new issues, topicals, single countries, duplicates, etc.

- HOLDS 100 STANDARD SIZE SELECTION CARDS

Scott Filler Strips

The "bulk" (or accumulated thickness) of stamps and mounts (or hinges) you add to your album, make the pages uneven. That's why Scott highly recommends album filler strips for its albums. Filler strips keep the pages tight and prevent them from tearing out when they're turned. Insert one or more filler strips every 10 to 15 pages and your albums will maintain a neat, well-balanced appearance. For Scott National and Specialty series Albums. (24 Strips) Product No. ACC105

SIGNOSCOPE®

(8 x 4 1/4" x 5 3/4" H)

the first optic-electronic Watermark Detector.

Lets you discover the watermark not visible with either lighter fluid or any other "dry" Watermark Detector!

\$300 or \$10,000?

Scott No. 439 or No. 476A?

The SAFE-Signoscope will show you!

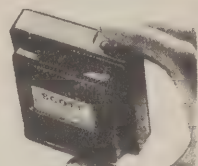

The SIGNOSCOPE is the only instrument which will effectively reveal the exact watermark in postage stamps (up to size approx. 2"x2") without the use of ANY chemical aids.

Within seconds, the SIGNOSCOPE will show you the difference between two seemingly identical stamps. You can also determine the true condition of the stamp, detect third places, grills, irregular papers, repairs and forgeries, as well as spot silk threads, granite paper, the fiber of the stamp and other interesting "finds" in your collection. Especially useful for checking watermarks on yellow or orange stamps.

The SIGNOSCOPE operates on 5 "AA" (1.5 Volt) batteries or on an optional AC Adapter with 7.5 Volt DC output.

No more strained eyes! No more nightmares!

How to Use the ScottMount Scale

Carefully position the stamp along the horizontal base line with perforations barely touching, and roughly centered along the upright bar. The cross line closest to and above the top perforations indicates the size mount to be used.

MILLIMETER SCALE

What mount size?
1. Place stamp on the base line.
2. Use the lowest number that is visible.
